

At Wallscourt Farm Academy (WFA) we believe our children live and learn in two key environments – home and school, and the way in which the two connect and communicate can make an enormous difference to how our children learn and achieve. Our vision is to support all children to access a rich and varied Arts curriculum and in doing so children will make these connections to develop knowledge and understanding of the world around them. Our school is ethnically and culturally rich and the Arts should be allowing children of all backgrounds and abilities a coherent means of communicating and learning together. At WFA drama, music, art and design, dance and creative writing are recognised and celebrated as being parts of ‘the Arts’.

Art and Design

Our aim is to encourage children to ignite their imaginations and creativity throughout their engagement with our bespoke curriculum ‘The Tree’. Teachers at WFA use ‘The Tree’ to identifying which artist, skill and Art discipline their year group is focusing upon. Although WFA has its own bespoke curriculum, The Tree; teachers further support the childrens Art and Design journey by referring back to the ‘WFA Art and Design Progression of skills’ document. This document segments the Art disciplines into:

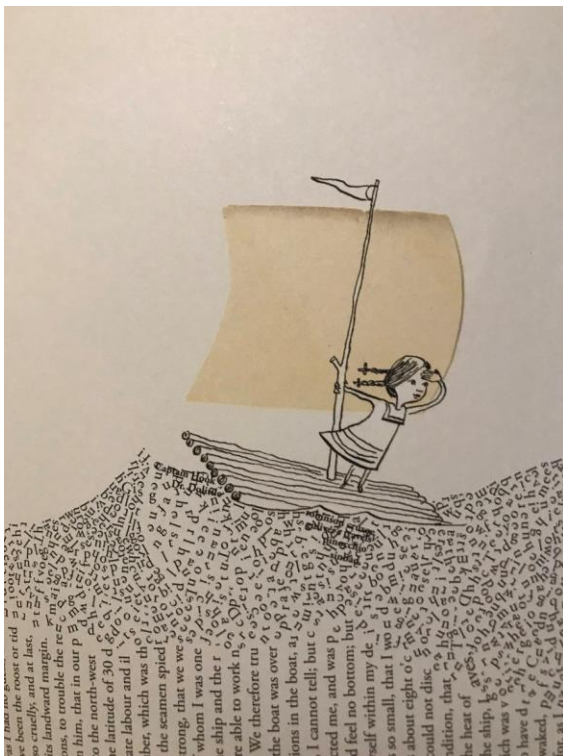

- Drawing
- Colour
- Texture
- Form
- Printing
- Pattern

Colour mixing in Year 3

Every child at Wallscourt Farm Academy owns their own sketchbook. This is an example of colour mixing in Year 1.

Pattern making.

Drawing from observation in Year 1,

Learning collaboratively as artists. Exploring oil pastels.
